

100% Kylie

THE INTERNATIONALLY ACCLAIMED KYLIE SHOW

“The **BEST**
Kylie
act!”

*Kylie Minogue talking about 100% Kylie,
Feb 2010*

There's no higher praise for a tribute show, than when the original artists themselves comment on the show. For most tribute shows, such as Elvis, The Beatles or Michael Jackson, this will never happen.

However... for one lucky stage show, it did happen.

And that stage show is the longest running Kylie stage show in the world, 100% Kylie. **History was made when the real Kylie Minogue called 100% Kylie the “best Kylie Act” out there. An incredible moment.**

It was a wonderful milestone for a show that has toured the world for the last ten years, performing thousands of shows to millions of Kylie fans right across the globe, from Dubai to Indonesia, Beijing to Malaysia, Hong Kong to Vietnam, and beyond.

After Kylie's career defining comments about 100% Kylie, she started following the show on Twitter, sending her love, support and best wishes regularly to the show via the electronic medium!

However, it wasn't the first time that Kylie has crossed paths with 100% Kylie, and her foremost impersonator, Lucy Holmes. Kylie's own personal manager of over 20 years, Terry Blamey, came and watched the show, with Kylie herself sending her very own DVD documentary film crew down to film the show for her own enjoyment. Another milestone moment, of which there have been plenty for this incredible stage show.

(more...)

100% Kylie is one of the most successful tribute shows in the country, constantly sharing the stage with other heavyweight shows such as Bjorn Again and Stayin Alive : The BeeGees Story. It has been booked solidly for 10 years, and is a favourite of the corporate scene due to it's high energy impact, incredible costumes, phenomenally muscular dancers, and of course, the incredible stage presence, voice, quick wit and charm of Lucy Holmes.

Lucy and the show *100% Kylie* have been featured constantly on television shows such as *A Current Affair*, *StarStruck* (where she was in the Grand Final), *Postcards*, *Mornings With Kerri-Anne*, *The Footy Show*, *The Singing Bee*, *Prank Patrol*, *The Morning Show*, *Battle Of The Choirs* and *Big Brother* to name but a few.

The show has also appeared in nearly every national newspaper and magazine across the country and even graced the cover of the largest selling magazine in the Middle East when she toured the United Arab Emirates. A national advertising campaign for electronics giant, TDK, saw Lucy appear in magazines such as *Rollingstone* and *Cleo*, and on massive billboards around the country as 'Kylie'. Lucy even created hysteria filming for *A Current Affair* in Kylies' hometown of Camberwell, as people thought Kylie had secretly popped home for a visit.

Globally, people love Kylie, and audiences love *100% Kylie*. Each performance is a spectacular mix of vocal brilliance and showmanship, musical excellence, amazing costumes, incredible dancers who have previously worked with the real Kylie, crowd interaction and fabulous humor. The show is always a fantastic nights entertainment for all ages, an exciting blend of cabaret, shimmering sequins, glitz and glamour always has the audiences dancing all night long and begging for more.

It seems that the world can't get Kylie nor *100% Kylie* 'out of their head'. You can find out more information at www.100percentkylie.com
